

CROWN CHAUFFEURS OPERATIONS PLATFORM

COMPLETE MASTER GUIDE BOOK (HINGLISH EDITION)

Version 2.0 • Production Reference Manual • All Features, Buttons & Automation Rules

1. System Introduction & Architecture Overview

Crown Chauffeurs Platform ek high-end **Enterprise Chauffeur Dispatch & Fleet Operations Engine** hai. Ye platform luxury transfers, corporate accounts, wedding fleets, airport VIP meet-and-greet transfers aur driver payouts ko automated tareeqe se manage karta hai.

- **Frontend Engine:** React 18 + TypeScript + Vite + Three.js 3D Luxury Car Canvases + TailwindCSS.
- **Backend API Engine:** Python 3.12+ + FastAPI + SQLAlchemy 2.0 (Async) + Pydantic v2.
- **Cloud Deployment:** Render Cloud (Decoupled Static CDN + High-Performance Python Backend).
- **Multi-Channel Alerts:** 1-Click WhatsApp Direct Dispatch + Google FCM VAPID Web Push + Web Audio Chime Synthesizer.

2. All 9 Modules & Complete Button Directory

Module 1: Executive Overview (/)

Business ka 360-degree executive snapshot jahan live KPIs (Today's Bookings, Active Drivers, Total Revenue in AUD) aur 3D luxury car display hoti hai.

Module 2: Live Operate Board (/operate)

Dispatcher ka main control room jahan saari rides 3 columns (PENDING, ALLOCATED, IN PROGRESS) me manage hoti hain.

Button / Control	Feature & Operational Action
Allocate Driver →	Modal open karta hai jisme Driver aur Vehicle select karke Driver Payout (\$ AUD) set hota hai. Overlapping schedule conflict auto-check hota hai.
Offload to Partner →	Agar internal fleet busy ho, to certified B2B Subcontractor Partner ko ride transfer karta hai fixed margin lock karke.
Filter & Search Bar	Passenger ke naam, phone, booking number (#CCM-XXXXX) ya vehicle class se instant filter karta hai.
Cancel Booking	Booking cancel karta hai aur Cancellation Circuit Breaker trigger karke automated customer reminders stop kar deta hai.

Module 3: Instant 3D Quoting & Booking (/quotes)

3D WebGL car preview ke sath instant luxury quote calculate karne aur booking confirm karne ka module.

Button / Control	Feature & Operational Action
Vehicle Category 3D	Executive Sedan, Premium Sedan, SUV, ya Minibus choose karein (3D model real-time change hota hai).
Airport Meet Toggle	Flight number input open karta hai aur \$22.73 airport toll + 60m parking wait buffer auto-add karta hai.
Pay Full vs 25% Deposit	100% full payment ya 25% deposit choose karein (baaki 75% balance milestone tracking me jata hai).
Confirm Instant Transfer	Master Booking (#CCM-XXXXX) lock karta hai aur confetti celebration animation blast karta hai.
■ Open in WhatsApp →	Confirmation modal par aane wala green action button jo 1 tap me formatted card WhatsApp par open karta hai.

Module 4: Driver Mobile PWA (/driver-portal)

Chauffeur ke phone ke liye dedicated mobile portal. Passenger ka total customer fare confidential shielded rehta hai (driver ko sirf apna approved payout dikhta hai).

- **1. En Route Button:** Driver jab pickup ke liye rawana hota hai (Ops & Manager ko notify karta hai).
- **2. Arrived Button:** Driver location par pahunchte hi passenger ko automated SMS bhejta hai.
- **3. Picked Up Button:** Passenger gaadi me baithne par ride ko live status me lock karta hai.
- **4. Completed Button:** Destination par dropoff finish hote hi driver earnings account me payout credit karta hai.

Module 5: Mobile Alert Hub & Notifications (/notifications)

Owner/Manager mobile notification center jisme 6 operational trigger rules configure hain:

Trigger Rule	Dispatch Event & Schedule
New Booking Alert	Customer booking create aur payment confirm hote hi instant alert with route, fare (\$ AUD).
Driver Allocated Alert	Dispatcher jaise hi driver aur car assign karega, payout rate ke sath instant ping.
Trip Milestones Alert	Driver ke En Route, Arrived, Picked Up, aur Completed buttons tap karne par live status updates.
Flight Delay Alert	FlightAware radar par 15+ min delay aane par auto-rescheduled time ka alert.
Urgent Unassigned Alert	Pickup se 4 ghante pehle tak job unassigned rehne par high-priority red alert.
12-24h Reconfirmation	Midnight-8am trips: 10am day prior. 8am-Midnight trips: 2pm (14:00) day prior.

Module 6 to 9: Airport Radar, Fleet, Invoicing & Analytics

- **Airport Flight Radar (/flights):** Commercial flights (QF400, EK408) aur private jets ka live radar tracking aur terminal gate instructions.
- **Partner Network & Fleet (/partners):** Internal vehicles roster, licenses, background compliance aur partner offloading.
- **GST Invoicing (/invoicing):** ATO 1/11th Tax Invoices (INV-2026-XXXX) aur First-In First-Out (FIFO) corporate debt clearing.
- **Profit Analytics (/analytics):** Gross Revenue, Fleet Costs, Net Margin (+60%), aur Driver Performance KPIs.

3. Automated Background Cron Engines (24/7 Scheduling)

Platform me 5 automated background engines continuous chalte hain:

1. **7/5/3-Day Balance Chasing Engine:** Outstanding payment ke liye pickup date se 7 din, 5 din aur 3 din pehle reminder bhejta hai.
2. **12-24h Customer Pre-Trip Reconfirmation:** Midnight-8am rides ko 10am aur 8am-Midnight rides ko 2pm par reconfirmation deliver karta hai.
3. **2-Hour Chauffeur Handover Package:** Pickup se theek 2 ghante pehle passenger ko driver ka naam, contact aur car plate bhejta hai.
4. **Cancellation Circuit Breaker:** Booking cancel hone par saari scheduled marketing/reminders emails instant freeze kar deta hai.

4. Live URLs & Deployment Cheatsheet
